Why Are These Three to be Appointed? When the Glenn-Green insurance which has produced such havoc over the state, was pending in the House, we introduced an amendment which provided that no member of the Legislature which might pass the bill, should be eligible to hold any office or appointment under the State Insur-ance Board for a period of three years after the passage of the bill. Charges had been made that the politicians be-hind the bill planned to reward many of the members who would vote for the bill with fat jobs to be paid for out of the money raised by the increased tax on the insurance companies. We had hoped that the House would adopt our amendment, for it would indicate that the membership was entirely above being influenced to pass the measure by any such a subtle form of bribery. By a vote of 41 to 37, the House defeated our amendment, however. Now comes a Lexington paper with the apparently authorized statement that Auditor Henry Bosworth, who was one of the heief backers of the bill, will appoint heief backers of the bill, will appoint a committee of three persons as special examiners to make an inquiry into the business of fire insurance, and especially of those companies which have ignored the order of the insurance board, to show why they have suspended business in the state. The men who are named by the Lexington paper, are Frank C. Green, who was Representative from Carroll county, Glov-

er H. Cary, Representative from McLean county and John C. Duffy, Representative from Christian county.
We hope that the report published in
the paper referred to is untrue. The
roll call shows that each of these men voted against our amendment and af-terward voted for the insurance bill.

> Change in Road Law Now Effective Gov McCreary this week signed the road bill which makes the road engineer system optional with each county in the state. This puts the control of the road system of each county directly into the hands of the fiscal court, and it is practically a certainty that the Lincoln county fiscal court will see to it that the dirt roads are in the future worked by the men who live on them and that they are allowed to pay out their poll taxes by such work. If the fiscal court does not do this, there will be another fiscal court elected the next time the people get a chance, and that's all there is to it. But the I. J. is satisfied that the Lincoln county fiscal court, constituted as it is, desires to follow out the wishes of the people of the county in this and every other matter within its power and that the people's wishes will pre-vail. The change in this law was what Lincoln county's representative in the Legislature worked harder for than any other one measure, as he had found that the people as a whole over the county wanted the road law changed if possible. And he is very glad for them to know that he was able to have a part in securing what they wanted.

> Justus Goebel is going to have a mighty hard time making the people of Kentucky believe that Jim Garnett is controlled by or subservient to the railroads or any other "interest." The people who know Garnett best won't swallow any such stuff as Goebel is handing out in his open letter to the people. We have the greatest admir-ation for Goebel and deeply respect his veneration for his brother's memory and the principles for which he fought and the principles for which he fought and died, but are afraid that he is per-mitting his zeal to become fanatical. We have heard it intimated that while Goebel hates the railroads with all the venom of his being, he is a partner in another trust which does Kentucky far more harm—the whisky trust—and that has never been known to open his mouth against it or any of its creatures or champions. If this is not true, we stand ready to make full correc-

Winter's Chills **Breed Kidney Ills**

Chilly, damp, changing weather is hard on the kidneys. Even more irritating are colds, grip, pneumonia, tonsilitis, quinsy and other infections. The kidneys get congested and inflamed, and this causes backache and disordered kidney action. serious in its latter stages, kidney disease is not hard to conquer if a good kidney remedy is used when the first signs of kidney trouble are noticed.

The best recommended kidney remedy in the world is Doan's Kidney Pills. You hear it everywhere. Get a box.

Stanford People Testify

Spring is Breaking; Backs are Aching

Backache is often the first sign of some form of kidney disease that has been coming on for months. Look for the other signs;—lame back, sharp pains when stooping or lifting, dizzy spells, nervousness or despondency, with irregular, painful or distressing action of the kidneys; if these signs exist, decide that the kidneys need attention, ere the trouble turns to gravel, dropsy or Bright's disease.

Read this home testimony and then give Doan's Kidney Pills a trial.
